

# KAJE ENGINEERING

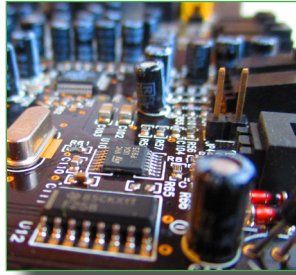

## About us

Kaje Engineering is a Danish consulting firm using a holistic approach when focusing on intelligent solutions providing a flow for our clients, whether it's business or data processes.

Our experts deliver business expertise and in-depth knowledge in the areas of programme & project management, operations and performance improvements to serve our corporate clients.

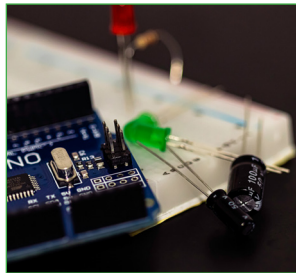

Kaje Engineering has advised and managed projects for government agencies and private companies in sectors like: transportation, aviation, airport services, healthcare and telecommunication.

These projects have been executed within Europe and USA. In Kaje Engineering we focus our work within Construction, Telecommunication, IT and Big data.
